DETAILED ACTION

This action is responsive to the amendment filed 09-07-2007, which has been entered.

Claims 3, 5-8 and 16-23 are allowed.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a CVT as set forth in claims 8 and 19, and most significantly requires a thread provided at an inner diameter of the transmission disk for transformation rotation of the disk into axial movement of the axially displaceable conical disks relative to each other. Claim 9 requires the two axially displaceable conical disks non-rotatably connected with each other via a positive connection formed by inter-engaging teeth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
